ATEES Industrial Training,
2nd Floor, Ananya Tower,
M.G Road ,Thrissur,
Kerala, India - 680001

At AIT, we believe in creating real professionals. Our brilliant COMBO program combines all the skills you need to become an expert in your field of interest. If you are into Android, we help you acquire all the skills of an all-round Android developer, from designing an Android app to building the backend, testing and final deployment.

Our COMBO programs come with industry recognized certifications and attractive discounts. Our students get access to specialized hands-on computer lab facilities that help them expand their skill set with a unique blend of theory and practicals.

BECOME A FULL-STACK ANDROID DEVELOPER { Android + Web Development + Server + Security }

- CODE** : Learn to code fluently in Java and start creating your own Android app.
- DESIGN** : Design beautiful user interfaces and learn how to work with Android Studio.
- DEVELOP** : Master languages like PHP, Java & Python to build the backend for your app.
- HOST** : Learn how to publish your app on Play Store and secure it from hackers.

BECOME AN ALL-ROUND iOS DEVELOPER { iOS + Web Development + Server + Security }

- CODE** : Learn to program in Swift and familiarise yourself with Apple Xcode.
- DESIGN** : Know how to use the Interface Builder to design a killer app.
- DEVELOP** : Build your backend for iOS apps using PHP, Java, Python etc.
- HOST** : Publish your app on App Store and protect it from hackers.

BECOME A JOB-READY WEB DEVELOPER { Web & Graphics + Web Development + Server + Security }

- CREATE** : Produce inspiring graphics for digital and print media.
- DESIGN** : Create a responsive website design that appeals to the user.
- DEVELOP** : Bring your web designs to life using Python, Java, PHP etc.
- HOST** : Learn how to set up a server and host your website successfully.

BECOME A DIGITAL MARKETING SPECIALIST { Digital Marketing + Software Testing + Server + Security }

- SEO** : Master techniques to push a website to the top of internet search rankings.
- SELL** : Learn to promote a business online through social media, email, paid ads etc.
- TEST** : Check your website for speed, accessibility, quality, SEO, security & more.
- HOST** : Know how to create a domain name and launch your website securely.

BECOME A SOFTWARE TESTING EXPERT { Software Testing + Server + Security }

- TEST** : Check software for usability, functionality and data security.
- TOOLS** : Learn to use automated testing tools like Selenium, QC and UFT.
- HOST** : Know how to host your website after testing and secure it using SSL.

ACADEMIC PROJECTS & SEMINAR PAPERS

AIT provides several IEEE and non-IEEE academic projects in CS/IT, ECE/EEE and Management for aspiring students and professionals. Currently we work on around 75 domains in technical projects and around 50 domains in management. We also provide seminar papers in all these domains. Students receive our full support from seminar planning to final presentation.

Our academic projects and seminar papers are highly valued by educational institutions all over the country and provide students with a real workplace experience. We have successfully implemented more than 10000 projects to date.

CS/IT Domains

- Data Mining
- Networking
- Geoscience & Remote Sensing
- Internet of Things
- Opinion Mining
- Affective Computing
- Knowledge & Information Systems
- Smart Grid
- Power Delivery
- Fuzzy Systems
- Information Forensics & Security
- Reliability
- Social Network Analysis & Mining
- Computer Modeling & Simulation
- Computational Science & Engineering
- Intelligent Systems
- Point of Care Healthcare Technologies
- Parallel Processing
- Security & Cryptography
- Intelligence & Informatics
- Cybernetics
- Dependable & Secure Computing
- Cloud Computing
- Intelligence & Security
- Parallel & Distributed Systems
- Knowledge & Data Engineering
- Neural Networks & Learning Systems
- Applied Soft Computing
- Big Data and Information Security
- Services Computing
- Network & Service Management
- Image Processing
- Mobile Data Management
- Steganography
- Network Security
- Computational Statistics & Data Analysis
- Web Services
- Artificial Intelligence
- Computer Communication & Information
- Web Mining
- Information Processing & Management
- Cryptography
- Intelligent Computing
- Security & Privacy
- Wireless Networking
- Pattern Analysis & Machine Intelligence
- Multimedia
- Signal Processing
- Database Security
- Biomedical & Health Informatics
- Audio, Speech & Language Processing
- Distributed Computing
- Systems, Man & Cybernetics
- Cluster, Cloud & Grid Computing
- Information Theory
- Mobile Ad Hoc & Sensor Networks
- Advanced Applied Informatics

Management Domains

- Human Resource (HR) Management
- Infrastructure & Real Estate Management
- System Management
- Entrepreneurship Management
- Retail Management
- Textile Management
- Finance Management
- Oil and Gas Management
- Energy Management
- Telecom Management
- Export Management
- Sports Management
- Tourism Management
- Shipping Port Management
- Risk Management
- Brand Management
- Environment Management
- Business Process Management
- Production Management
- Strategic Management
- Marketing Management
- Industrial Management
- Service Portfolio Management
- Business Relationship Management
- Demand Management
- Service Level Management
- Capacity Management
- Availability Management
- Service Continuity Management
- Logistics Management
- Product Management
- Supply Chain Management
- Knowledge Management
- Quality Management
- Hospital Management
- Fashion Management
- Communication Management
- Customer Relationship Management
- Dairy Management
- Disaster Management
- IT Management
- Operations Management
- Rural Management
- Business Analytics
- Biotechnology Management
- Hotel Management
- Facility Management
- Healthcare Management
- Event Management
- Construction Management
- Co-operative Management
- Release & Deployment Management
- Supplier Management
- Project Management
- Change Management
- Assets & Configuration Management
- Problem Management
- Access Management

COURSES

We offer job-oriented courses in all current technologies to kickstart your career as a programmer, network professional, technical support engineer, security expert and more. Learn in-demand skills and technologies and position yourself as an IT expert with up-to-date certification. Our cutting-edge courses cover a wide range of topics including software applications, hardware, programming, design, database, security and other business applications.

Digital Marketing & Branding

- Online Marketing
- Mobile Marketing
- Content Marketing
- Digital Marketing
- Conversion Rate Optimization
- SEO
- PPC
- Email Marketing
- Web Analytics
- Social Media Marketing

Programming Languages

- Objective C
- C++
- C#
- C Programming
- Node.js
- Java
- Swift

Web Technologies

- AWS
- ASP.NET
- Bootstrap
- Materialize
- CodeIgniter
- cPanel
- HTML5
- CSS
- Django
- Flask
- Ruby on Rails

Mobile Development

- Android
- PhoneGap
- Cordova
- iOS

Multimedia

- Graphic Designing
- 2D & 3D Animation
- Web Designing
- Visual Effects & Post Production

Scripting Languages

- Ajax
- AngularJS
- PHP
- Ruby
- JavaScript
- jQuery
- Python
- Unix

Others

- Web Hosting
- Software Testing
- Server and Security
- Hadoop
- Odoo
- Hardware & Networking

ABOUT AIT

ATEES Industrial Training (AIT) is a learning initiative of ATEES Infomedia Pvt. Ltd, a leading IT solution provider. Our goal is to provide individuals and organizations with the most extensive, practical hands-on training in all popular technologies. We provide tailored certification programs for students to suit their specific needs and schedules. We deliver live academic projects, hands-on IT training courses, workshops, internships, seminars and other customised learning solutions to students all over the globe.

Our training programs are conducted by industry experts in a creative environment which is conducive to knowledge sharing and professional growth. Our award-winning curriculum is constantly updated to include emerging advancements in technology so that our students have access to the latest and most up-to-date versions.

We promote a working culture focused on quality and creativity. Our real-time projects and courses are identified as the best by top engineering colleges in India. We strive to provide our students with stress-free learning in a disciplined environment while upholding high levels of integrity and business ethics.

Our vision is to produce talented young minds with the technical and personal skills required to meet the demands of the current fast-evolving IT industry. We have helped hundreds of individuals get into satisfying careers in IT support, web/software development and digital marketing with our blend of training and recruitment services.

We support holistic education for our students and encourage them to be global-minded individuals, acquire leadership skills and pursue creative endeavours. Our job guarantee offer ensures that our qualified students get into highly rewarding careers in the IT sector.
